

# CHEST HANDLE

25841

## FEATURES:

- medium 19 gauge steel brass plated handle
- ornamental steel chest handle with solid  $1\frac{3}{64}$ " wire bail
- handle swings to  $90^\circ$  stop to the backplate
- bail holes are  $2\frac{1}{4}$ " on center
- four  $\frac{5}{8}$ " x #5 brass oval head screws provided

## APPLICATION:

An ornamental steel brass plated chest handle that can be used on light to medium wood and steel chests or trunks.

## SPECIFICATIONS:

## INSTALLATION:

1. Place handle into desired position on chest or trunk.
2. Draw a centerline from A to A vertically from top to bottom on chest end. (Fig. 2)
3. Measure  $1\frac{1}{8}$ " out from each side of line A - A and draw lines B parallel to line A - A.
4. Draw line C horizontally across line A - A for the top two screw installations.
5. Measure down  $\frac{7}{8}$ " from line C and draw line D horizontally across line A - A. Line is for the two bottom screws.
6. Indent and drill pilot holes for the four  $\frac{5}{8}$ " x #5 oval head wood screws. Use small bolts if more weight is involved.
7. Install screws or bolts.
