

**FEATURES:**

- shelf supports are made of steel and available in 3 finishes
- pin size is 1/4" diameter by 3/8" length
- support pad has 5/32" diameter hole for rubber cushions
- requires drilling 1/4" vertically spaced holes in case sidewalls
- rubber cushions sold separately protect the shelf from slipping and scratching - see item #33928

**APPLICATION:**

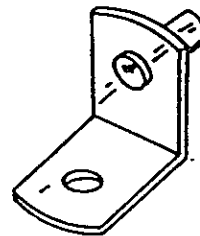

Shelf supports for case furniture (wood).

**SPECIFICATIONS:**

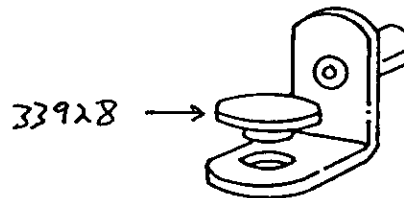

**INSTALLATION:**

1. Drill 1/4" diameter vertically spaced holes (2 rows) on case sidewalls (inside) 7/16" deep.
- Note: A metal hole drilling template with equally spaced holes speeds up this production step.
