**SPECIALTY
ABRASIVE**

MANUFACTURER:

Empire Blended Products, Inc.
250 Hickory Lane • Bayville, NJ 08721
(732) 269-4949 • Fax (732) 269-0497

PRODUCT DESCRIPTION:

RAINBOW PUMICE STONE is an abrasive which is most commonly used for finishing and refinishing furniture and for removing scratches, blemishes or any surface dents on wood. It is also used to clean and polish metal and to clean, polish and buff glass. It serves as an excellent paint additive to add a non-skid or textured finish. *PUMICE STONE* can also be used as an additive for powdered hand soap or for polishing natural teeth and dentures. It is also commonly used as a filtration media. It is available in 4 grades: #57 (course), FF (regular), FFF (fine) and FFFF (very fine).

USES:

- ▶ Finishing furniture
- ▶ Metal and glass polish
- ▶ Non-skid and texture paint additive
- ▶ Abrasive for powdered hand soaps and tooth cleaners
- ▶ Filtration media

ADVANTAGES:

- ▶ 4 convenient grades
- ▶ Uniform particle size

APPLICATION:

Surface Preparation:

The wood surface to be refinished should be thoroughly dry.

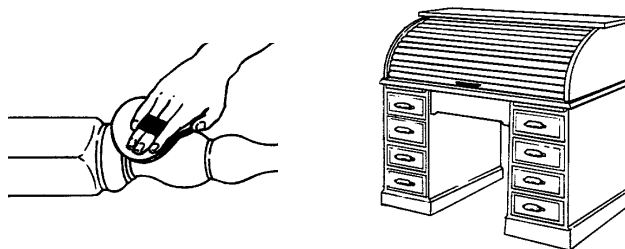

Mixing:

No mixing is necessary.

Directions:

Saturate rubbing felt or plain soft cloth with light oil.

Dip it in *PUMICE STONE* and shake off the excess. Apply, using uniform pressure over a small area,

using approximately 6-8 strokes, always rubbing with the grain of the wood. Wipe off the excess *PUMICE STONE* with a clean oil saturated cloth. Remove oil with a plain, dry cloth. This will give a satiny finish. If a gloss finish is desired, use water in place of oil. The oil rubdown is slower than water, but both processes are very effective. *PUMICE STONE* can also be used in the same manner as described above to remove scratches from other materials and spots on oil, varnish or lacquer finishes. If it should leave a dull spot, polish it with *RAINBOW ROTTEN STONE* and light oil.

Coverage:

Amount of surface area finished will vary with the type and condition of the wood and the finish desired.

Packaging:

Available in 1 pound boxes with sealed plastic bags (12 per carton), 5 pound boxes with sealed plastic bags (6 per carton) and 25 pound and 50 pound multiwall paper bags with moisture barrier.

Color:

Off white

TECHNICAL DATA:

Particle size:

| | |
|---------------------|----------|
| #57 Grade. | 60 mesh |
| FF Grade. | 120 mesh |
| FFF Grade. | 160 mesh |
| FFFF Grade. | 200 mesh |

LIMITATIONS:

Care should be taken not to use too coarse a grade for application and material or scratching will occur, especially on glass surfaces.

CAUTION:

Keep Out Of Reach Of Children.

WARRANTY:

Due to the use of this product beyond our control, we assume no liability for damages of any kind, and the user accepts the product "as is" and without warranties, expressed or implied, from either Empire Blended Products or its agents. The suitability of the product for an intended use shall be solely up to the user. Our only obligation shall be to replace or pay for any material proved defective, with our liability limited to the purchase price of materials supplied by us.
